INNOVATIONS IN COLOPROCTOLOGY

BERLIN, JUNE 17-18, 2010

Chairman: R. Scherer

Co-Chairman: S. Larach, H. Gögler

Venue: Hospital Waldfriede
Argentinische Allee 40, 14163 Berlin
Germany

www.coloproctology-waldfriede.com

Dear colleagues,

it's a great pleasure and honour for me
to organize the

**2° LIVE SURGERY AND SYMPOSIUM
"INNOVATIONS IN COLOPROCTOLOGY"**

It will be an international meeting with famous colorectal surgeons from all over the world.

In the live surgery session on the first day we will show these newest techniques in colorectal surgery operated by the very experts and developers of these new techniques. The session will be connected by Live telecast to a parallel symposium in Orlando/Florida.

The Florida Hospitals are the cooperation partner of the Hospital Waldfriede in the United States.

On the second day we will have five interesting scientific sessions regarding haemorrhoids, anal- and rectovaginal fistulas, laparoscopic colorectal surgery, constipation and fecal incontinence.

The Keynote lectures will show the similarities and differences of colorectal surgery in the United States and in India.

Looking forward to amazing days in Berlin.

Yours

BERLIN CENTER SHIP CRUISE

Saturday, June 19, 2010
10:00 a.m. from "Schloßbrücke Charlottenburg"

No other metropolis in Europe offers that direct view into the heart of a city. Large parts of old and new architectures are built towards the water and large stretches of the river Spree and Landwehrkanal banks are not lined by streets. It is especially this aspect which makes a boat trip so special or even compulsory to really see all of the city. Board one of our panorama ships and experience Berlin in a very close and boundless way!
